DETAILED ACTION

The papers dated 3-13-2009 have been entered and are treated herein.

Oath/Declaration

1. The reissue oath/declaration filed with this application (dated 3-13-2009) is defective because it fails to identify at least one error which is relied upon to support the reissue application. See 37 CFR 1.175(a)(1) and MPEP § 1414.

Reissue declaration dated 3-13-2009 is not in compliance with 37 CFR 1.175 in that the statement of error relied upon is not a proper statement of error.

Applicant has indicated that the patent is partly inoperative or invalid "by reason of claiming more and less than" he had a right to claim. "More than a right to claim" means the claims were too broad; "less than a right to claim" means that the claims were too narrow.

The declaration has not set forth what the error in the patent is. Applicant has indicated "I disagree with the examiner's rejection of claim 1 of the '950 patent", which means applicant doesn't think that the claims are unpatentable. Accordingly, it appears the applicant is of the opinion that there is no error or that the error is not of the type reflected in the currently pending claims.

According to MPEP 1414, II, (C), "Any error in the claims must be identified by reference to specific claim(s) and the specific language wherein lies the error" (emphasis added).

Applicant must set forth a reason why patent claim 1 is too broad and too narrow since the error is the claiming of both "more and less" then applicant had a right to claim.

2. Claims 1, 3, 4, and 6-22 are rejected as being based upon a defective reissue declaration under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175.

The nature of the defect(s) in the declaration is set forth in the discussion above in this Office action.
